

Provider Bulletin

These bulletins are how we communicate procedures, reminders and other information to our valued Magellan Complete Care providers. Please take the time to read the information and share with your colleagues and staff. You can also find this information on MCCofFL.com.

Prior Authorization Requirement Changes

Magellan Complete Care of Florida (MCC of FL) values the level of service you provide to our members and are committed to keeping you abreast of any updates made to our health plan. Effective 7/1/21, National Imaging Association (NIA) will no longer be a part of the MCC of FL network. Since NIA also owns and manages RadMD and the function of authorizing advanced diagnostic procedures, we are updating our current processes for authorization of these services.

Effective 7/1/21, MCC of FL will institute a 60-day temporary suspension on the requirement of authorizations for advanced diagnostic procedures to allow for system conversions. Advanced diagnostic imaging services are limited, except for services rendered in a hospital setting, and include the services listed below:

- MRIs
- MRAs
- PET Scans
- CT Scans
- MPI/Nuclear Stress
- MUGA
- Heart Catheterization
- Stress Echocardiography

Please note: Although services will not require prior authorization, providers should still follow appropriate clinical care guidelines to ensure that the services are medically necessary. MCC of FL reserves the right for retrospective review on these services and if appropriate may deny payment as a result.

For questions, please contact MCC of FL's Provider Services department at 800-327-8613.
