Follow-Up After Hospitalization for Mental Health (FUH)

Generating better health outcomes and improving HEDIS scores is a positive outcome for everyone. Magellan Complete Care is offering support by providing the details of specific measures and giving you other valuable tips. This will help you optimize your score in a way that accurately reflects your performance as a provider.

What is the measure?
Measure evaluates the percentage of discharges for members six years of age and older who were hospitalized for treatment of selected mental illness diagnoses and who had an outpatient visit, and intensive outpatient encounter or partial hospitalization with a mental health practitioner. Two rates are reported:
1. The percentage of discharges for which the member received follow-up within 30 days of discharge.
2. The percentage of discharges for which the member received follow-up within 7 days of discharge.

What codes should you use?

<table>
<thead>
<tr>
<th>CPT Coding</th>
<th>HCPCS</th>
<th>UB Revenue/Point of Service</th>
</tr>
</thead>
<tbody>
<tr>
<td>Follow-up visits to mental health practitioner in a PHP or CMHC</td>
<td>S2- Psychiatric Facility-Partial Hospitalization S3- Community Mental Health Center</td>
<td>0513, 0900-0905, 0907, 0911-0917, 0919</td>
</tr>
<tr>
<td>A visit with a mental health practitioner in a BH</td>
<td></td>
<td>0513, 0900-0905, 0907, 0911-0917, 0919</td>
</tr>
</tbody>
</table>

Providers should always bill codes appropriate to the services rendered. Participating providers should consult their contract and the member’s benefits to confirm whether a particular code is a covered service.

**TCM 14 day value set for 30 day**—TCM is a billable, 30 day period that begins on the date of discharge and continues for the next 30 days. The date of service on the claim is 29 days after discharge, and not the date of the face-to-face visit.

99496

**How can you improve HEDIS scores?**

- Use correct diagnosis and procedure codes.
- Submit claims and encounter data in a timely manner.
- Educate inpatient and outpatient providers about the measure and the clinical practice guidelines.
- Try to schedule the follow-up appointment before the patient leaves the hospital. Same-day outpatient visits count.
- Make sure that the patient has two appointments before they leave the facility. One within seven days of discharge, and another within 30 days.
- If the patient is a child or adolescent be sure to engage parents/caregiver in the treatment plan at the time of discharge. Advise them about the importance of these follow-up appointments.
- If you are not going to care for the patient after discharge from the facility, make sure that the referral process is secured, that you’ve transitioned the treatment plan to the BH provider and the PCP who will care for the patient after the hospitalization.
- Visits must be with a mental health provider.
